Highlights to Think About From This Month's Reading

Topical Readings

October 28

We will read through the latter part of the book of Proverbs, beginning with chapter 10, sequentially by chapter with commentary. First, however, we are inserting this topical reading list for the book—some verses of which we have read already.

We have chosen a division into 34 categories. Please note that this is not the *only* way or the *best* way to divide the book. It is merely *A* way verses can be arranged to emphasize particular subjects. By putting *all the proverbs* on a given subject together a powerful punch is created. Reading *scripture after scripture* about “diligence,” for example, helps to really *get* the point. Also, going through the book this way helps to illustrate the breadth of its application to all areas of life.

Afterward, as noted above, we will return to the sequential approach to the book.
